GENERAL ORNAMENTAL
NURSERY STOCK

SAM STOKES & SON

ESTABLISHED IN 1901

Oldest Nursery in Central Louisiana.

LECOMPTÉ, LA.

Visit Our Nursery

We are easily reached by auto within a few hours from any point in the State, being centrally located four miles west of Lecompté on Highway Louisiana, U. S. No. 165. Lecompté is in Rapides Parish, sixteen miles south of Alexandria on the Jefferson Highway, La. U. S. No. 71. Look for our sign.

**“The Richest Home is Poor
Without Flowers.”**

To Our Friends

Again we take this opportunity to express our thanks for the many favors and generous patronage that has been extended us during the past thirty-two years.

It shall always be our earnest desire and effort to carry on our work here in such a way as to merit your continued favors, and also to add many new people to our wide circle of friends.

We hope our extremely low prices will not lead you to think that the quality is low—it is not, and will not be. Continuously in the nursery business for over thirty years, our aim has always been to please. The name of “SAM STOKES” has been to thousands, and is to you, a safeguard to highest quality and fair dealings. Our record and reputation for high quality and fair dealings can best be attested to by our thousands of satisfied customers.

As Good as Can be Grown

We have always put forth every effort to produce the very best stock that can be grown, and in our thirty-two years experience we have never grown or offered any better stock or bigger values than we are offering this season.

We have many items not found in this list. Write us about anything not listed—perhaps we have it.

Visit Our Grounds

We cordially invite you to visit our nursery at any time, and we will gladly show you around. If you can't visit our

PANSY PLANTS

The same wonderful mixture that we have been producing for more than twenty years. This is the finest Giant Flowering Pansy Mixture grown. There are in pansies—as in many other kinds of plants—innumerable varieties and mixtures. But few of these are good, while many are very nearly worthless. After years of exhaustive tests, experiments and observation, we selected one of the best that has been improved to such an extent that no other kind, we believe, will ever receive such wide-spread recognition among pansy growers.
